

At Cincinnati Parks we think you can enjoy the outdoors all year long, and our Parks programs will encourage you to do just that. We have two types of seasonal program listings. One is intended for the general public and the other is for schools, scout troops and youth groups. Enter a World of Discovery

Cincinnati Parks has always believed in the importance of nature to each person's well-being. Now there's compelling evidence that frequent outdoor play is essential for the healthy development of all children. Adults and families experience their own benefits when outdoor exercise and nature interaction become part of regular routines. We're sure to have a program that will get you and your child enjoying our great outdoors:

- Preschool Programs
- Summer Camps
- Nature Next Door – summer only

Teachers: Bring Your Classroom to the Parks, or We Can Bring Nature to Your Classroom

Students can experience first-hand our role in nature and ecology with a wide variety of educational sessions led by Cincinnati Parks Naturalists at our five Nature Education Centers and neighborhood parks. Or, we can come to you. We offer affordable sessions on seasonal topics (Why do leaves turn color in the fall? How do animals prepare for winter?), and we can bring to life almost any nature-related topic you might be planning to cover (birds, mammals, reptiles, insects, trees, or wildflowers, for example). We make our programs age-appropriate, from pre-school age to upper elementary ages. All school programs correlate to the Ohio Academic Content Standards, and can be customized to best fit your lesson plans. Most Scout programs correlate to achievement and badge requirements.

We offer:

- School Programs
- Nature Connections
- Preschool Programs
- Brownies and Girl Scout Programs
- Cubs and Boy Scout Programs
- Other Youth Groups
